Dear Team,
I have raised this complaint more than a year back however my issue is still not resolved.

After running multiple times in electricity board office they said your meter is not functioning properly hence we are changing your meter and later this malfunction of electricity will be corrected. Even though after changing the meter my issue is still not resolved.

Please let me know if this issue can be resolved else ill raise this issue with Electricity Consumer Forum.

Dear Sir,

I would like to request you to please look into the matter given over trail email. My original issue was from ~November 2023 and we are approaching End of March 2025.

I have been visiting my office numerous times, sharing video with officers over WhatsApp and always getting verbal confirmation that it will be fixed however till now there is no proper response on my issue.

I would urge you to please look into this matter on priority before I proceed to consumer forum.

Regards

Asheesh Kumar Tripathi
